Oil and Water Fireworks

Name: _____ Date: _____

1 My Prediction

What will the oil do in the water?

- ◯ It will sink and mix.
- ◯ It will stay on top.

Draw your prediction.

2 What I Saw

Draw the fireworks. Where is the oil? Where is the color?

Draw it here.

3 What Happened?

The color moved because ...

Science Words

oil	a slippery liquid that floats
mix	to put together
burst	to spread out fast
